

NOT ALL VIDEO PLAYERS ARE CREATED EQUAL

#VideoPlayer is only good as the #VideoPlatform behind it!

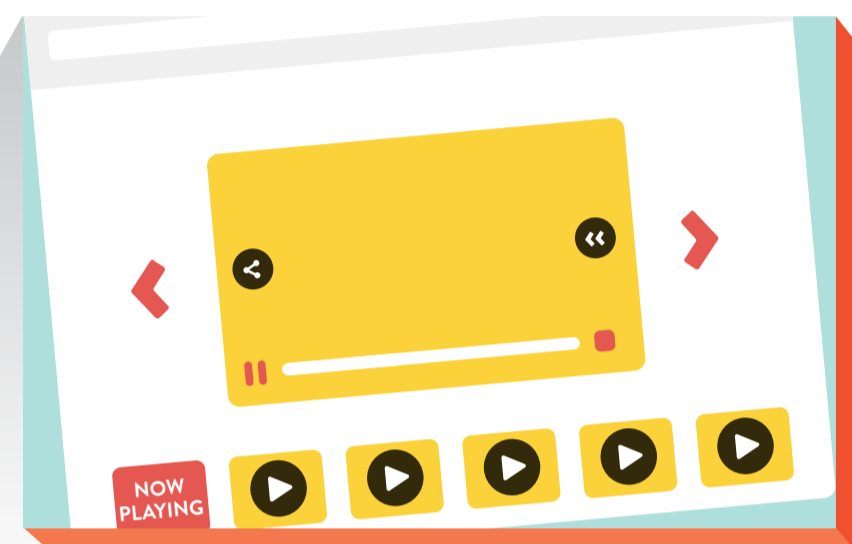

Basically, video platform should cover all your video needs like host videos if you want, encode and stream videos, manage content, customize player to match your brand, track engagement through video analytics, serve ads and monetize your video content. Having all these features, like BridTv does, helps a lot in every business.

But having one of these extra features will skyrocket your business!

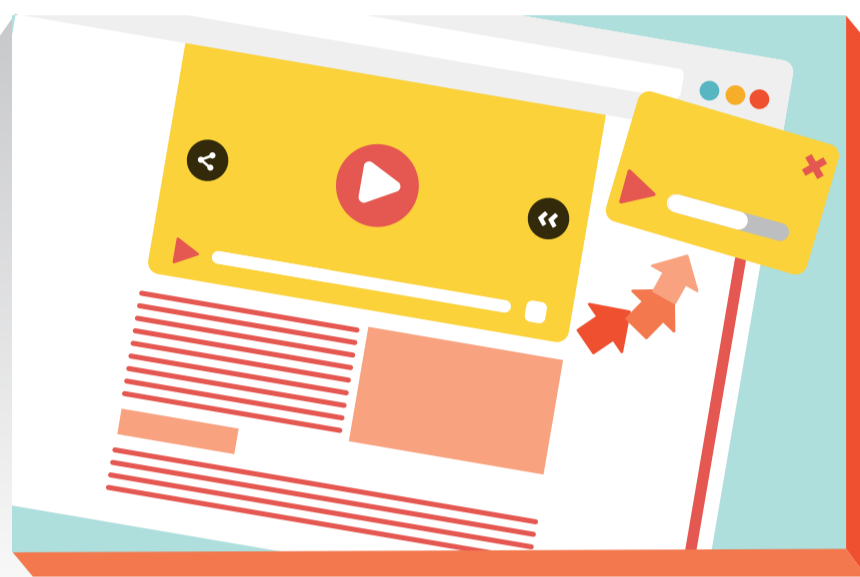

IN-PAGE VIDEOS ON MOBILE WITH AUTOPLAY

<https://www.brid.tv/page-videos-mobile-autoplay/>
Mimic the look, feel and functionality of videos in Facebook news feeds and allow your users to have a familiar user experience for video as they do on Facebook.

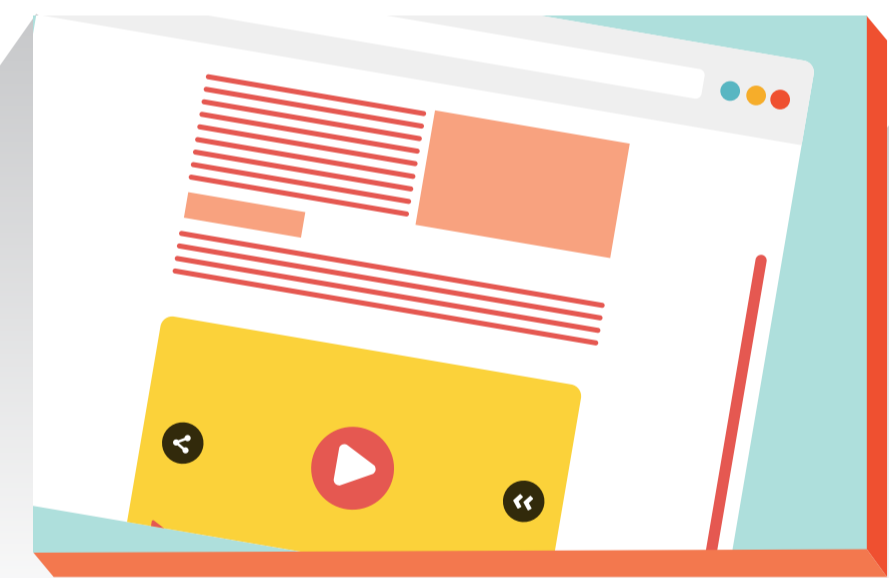

OUTSTREAM UNIT

<https://www.brid.tv/outstream/>
Make your video player always in focus with outstream feature.

AUTOPLAY 50% IN VIEW

<https://www.brid.tv/autoplay-50-in-view/>
Allow the player to autoplay only when the Brid video player is at least 50% in view for a user.

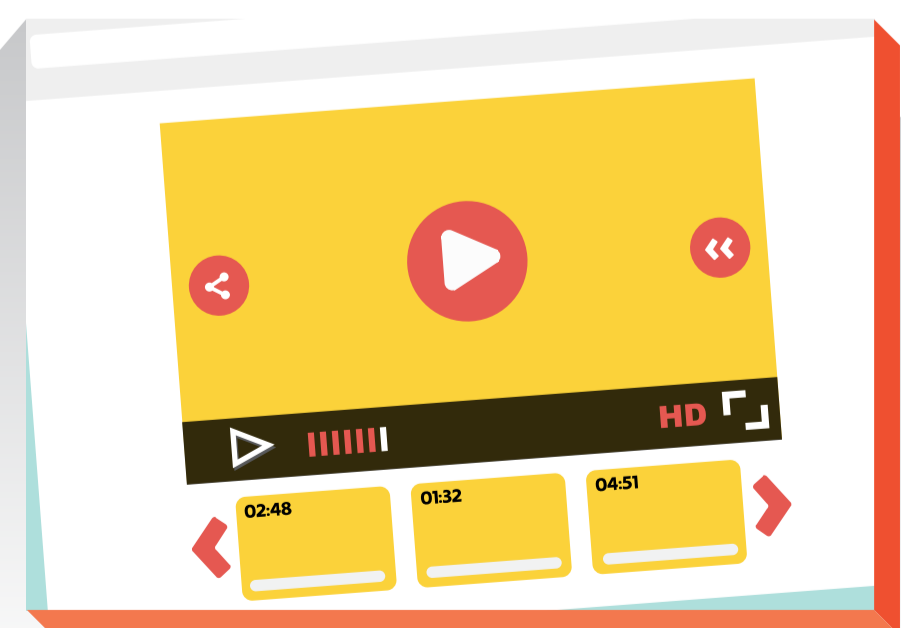

PRE-ROLL FOR FACEBOOK WALL FEATURE

<https://www.brid.tv/pre-roll-for-facebook-wall-feature-2/>
Whenever you share your player on Facebook, the Brid player will embed directly in your Facebook wall and your pre-roll will appear before your video starts playback.

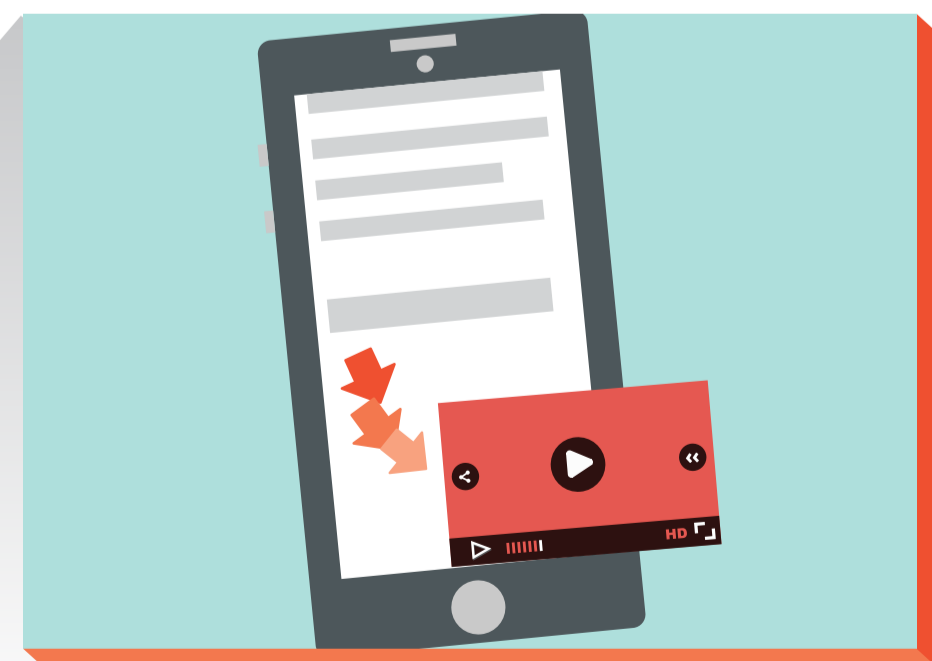

PLAYLIST WIDGET

<https://www.brid.tv/brids-playlist-widget/>
Mobile and touch friendly widget which takes in a user created playlist and displays them in a different manner.

SLIDE INVIEW

<https://www.brid.tv/slide-inview/>
The slide inview provides publishers a way to maximize their premium ad inventory as the player always maintains viewability.

No one wants to be left behind and outperformed by competitors.
#BridTv has grown rather large teeth for your video content giving your business a head start!
